Come build the lake home you've been dreaming about with the views, privacy, and outdoor lifestyle that make the Ozarks such a special place to retire. The ridge-top portion of the property provides a natural homesite with the land gently sloping toward the lake an ideal setup for a walkout basement design. Picture a home positioned to take full advantage of the views, with a spacious back deck overlooking the lake and surrounding Ozark landscape. 500-foot well. Electricity installed. Perc tested. Newer extra-wide driveway culvert. Workshop pad with electric. Outdoor recreation is one of the great attractions of this area. The property is approximately 2 miles from public lake access and a hiking trail, put in boating, fishing, hiking, and exploring close to home. Bull Shoals Lake is also nearby, while the White River and Norfolk River are renowned destinations for world-class trout fishing.
